

SPARKADIA

New single

animals

Sydney four piece, **Sparkadia**, have had quite a year:

Their debut EP sold out two-pressings domestically and spawned the radio gem, '**Morning Light**'.

They signed directly to UK indie, **Ark Recordings**, off the strength of their demos.

They recorded their debut album in London with uber producer **Ben Hillier (Doves, Elbow, Blur and Depeche Mode)** and have just returned from touring the UK supporting **The Thrills**.

They have supported the likes of **Elbow, Tegan And Sarah, The Pet Shop Boys, Mika, The Bravery, Ben Lee and The Feeling** and just packed out Sydney's Oxford Art Factory putting on their own event which included **burlesque, tango dancers and magicians!**

Building further on these impressive foundations comes the new radio track, '**Animals**', which just picked up the coveted, **Guardian, Single of the Week:**

"Sparkadia's debut single is a really great song. It's an ADD version of Peter Bjorn and John's 'Young Folks' but with spooky, witchy backing vocals and masses of reverb" - Guardian (UK)

'Animals' is available as a special **digital only single** from 10 December.

Sparkadia's debut album 'Postcards' is set for release in mid 2008 through Ivy League Records
